

To: Interested CMAR for BP4 and BP6 Vendors

From: Nadia Powers, Director of Purchasing

Date: April 15, 2024

Re: Addendum #1

The below information is being provided to interested vendors for clarification as well as requirements to submit to this opportunity.

Crowley ISD reserves the right to require the construction manager-at-risk to review trade contractor/subcontractor proposals for the indoor track and associated components and to select the trade contractor/subcontractor based on the District's best value standard for the specialized performance needs for this facility.

The Construction Manager at Risk is required to select a contractor/sub-contractor with extensive experience in the installation of a 200M indoor hydraulic track system. This contractor will also need to have experience in the installation of a 9 lane European style track and associated field events of shot put, hammer throw, javelin and discus.

Sincerely,

Nadia Powers, Director of Purchasing
